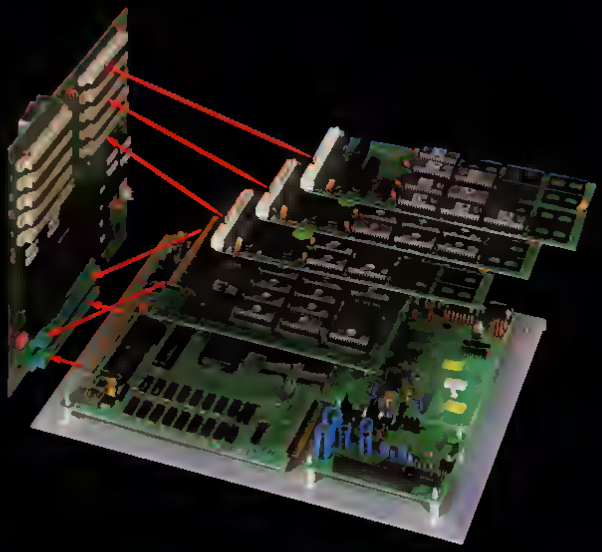
What do you get when you install a "SUPER SELECT SYSTEM" in your location?

SUPER SELECT SYSTEM

You get the latest in video game technology with all these features to maximize your takings:

- The long term earning potential of up to 10 different new games, all in one cabinet.
- Each game is totally new. There are no tired re-runs. All have been developed exclusively for the "SUPER SELECT SYSTEM". Two player game, buy-in and continue play options are featured in most games.
- Each game comes on ARCADIA's unique MEGABOARD plug in cartridge. It takes only a minute to change a game and the machine automatically readjusts to changes. There are no complicated manuals to read.
- Up to one megabyte of brilliant high resolution graphics and stunning stereo sound in each game.
- A wide variety of games is available, from simulations of outdoor sports and pub games to arcade adventures and the very best in fast-action shoot-'em-ups, so all tastes can be catered for in just one cabinet.
- ARCADIA's **MEGABOARD** exchange program maximizes earnings at minimum risk to the operator while ensuring you will always have the most up to date machine in your location. Ask your distributor for details.
- ARCADIA's release schedule provides for a new "SUPER SELECT SYSTEM" game each month. Our team of over 200 programers will ensure we keep to it.
- The system is based on "state of the art" Amiga® technology and ARCADIA's custom "Global Control Program" will ensure that the system remains incredibly easy to operate. Full on screen operator configuration menu includes difficulty adjustment, game statistics, coinage options and diagnostics. No more inaccessible dip switches.



With all this in its favour, can you afford not to install a "SUPER SELECT SYSTEM"?
